

Petition for Approval of a UVA Non-Sociology Course

Approval to count a course in another department of the University toward the Sociology major may be obtained before or after taking the course. Please send this form to the Department's Academic Administrator (soc-academicadmin@virginia.edu), together with a copy of the course syllabus. (Copy of course syllabus must be attached.) If the course approval is in advance of taking the course and the syllabus is not yet available, the syllabus for the most recent prior offering of the course by the same instructor is acceptable. If the course syllabus does not include information about class session topic, readings, or assignments, the student must provide an additional document with that information.
